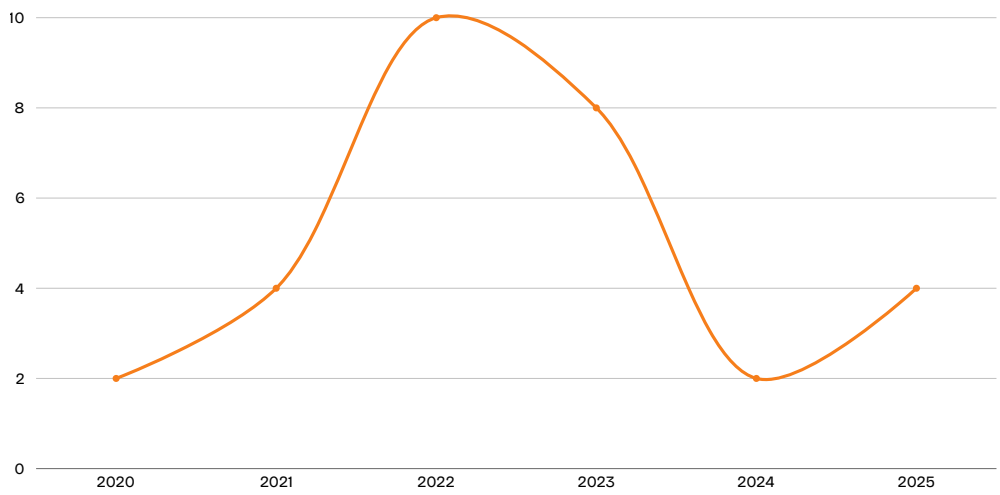
YOUR CART COSTS MORE – A LOT MORE

Since 2020, Canadian grocery prices have risen by roughly 22%, reshaping how millions of families shop, eat, and budget every week.

CART METRICS

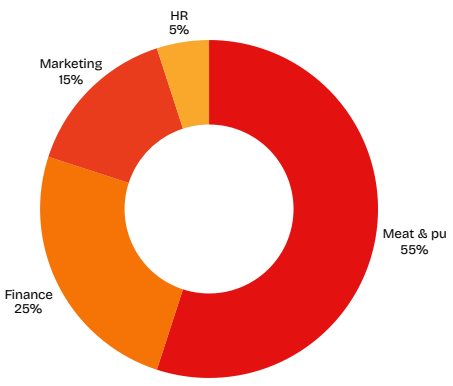
Grocery price rise since 2020	22%
Single-year peak increase (2022)	9.8%
Canadians faced food insecurity in 2023	1 IN 4

FOOD INFLATION RATE, YEAR OVER YEAR (%)



Inflation peaked in 2022 highest since 1981. It has slowed since, but prices remain elevated.

WHERE FOOD BUDGETS GO (2024)



REAL-WORLD IMPACT

WHAT THE SAME CART COSTS TODAY

2020	2025
$100	$122

The same basket of groceries that cost $100 in 2020 now costs $122 in 2023. $22 invisible tax on every shopping trip.

FOOD BURDEN BY INCOME

The higher your income, the smaller your food burden

Why does the same grocery bill hurt some Canadians far more than others?

KEY DRIVERS IN 2026

Import cost surge	60%
Beef supply shortage	17%
Geopolitical risk	3-5%
Climate events	29.6%
